Education

Vellore Institute of Technology, India

2023 – 2027

B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning) — CGPA: 7.89

Technical Skills

- **Programming:** Python, SQL, Java
- **Analytics & Product:** Excel, Google Sheets, Pandas, NumPy, Product Analytics, Business Analytics
- **Development:** FastAPI, REST APIs, PostgreSQL, Git, GitHub
- **Core Skills:** Problem Solving, Stakeholder Management, Data Analysis

Work Experience

Mavlen Labs - Founding Engineer

Jan 2026 - Present

(Python, FastAPI, React, Next.js, PostgreSQL, Git)

Remote

- Co-founded a software development agency delivering AI-powered products and custom software solutions for startups and businesses, taking projects from discovery to production deployment.
- Managed client interactions, gathered business requirements, translated them into technical roadmaps, and delivered scalable solutions through rapid iteration and continuous feedback.

Paws Pal Connect - FastAPI Developer Intern

Dec 2025 - Mar 2026

(FastAPI, REST APIs, PostgreSQL, Pydantic (FastAPI validation), Git / GitHub)

Remote

- Developed and maintained production-ready REST APIs using Python, FastAPI, PostgreSQL, and Pydantic, focusing on scalable backend architecture and reliable data validation.
- Optimized database operations, debugged backend issues, and improved API reliability through systematic testing, error handling, and technical documentation.

ASGRV Solutions Pvt. Ltd. - Software Developer Intern

Jun 2025 - Dec 2025

(FastAPI, REST APIs, Microservices Architecture, SQL Databases, Pydantic, JSON, Git, Async APIs)

New Delhi

- Developed a Smart Search microservice using Python and FastAPI, reducing data retrieval latency by 30%.
- Designed and implemented secure RESTful API architecture, writing production-ready code that streamlined operational workflows and reduced server load by 10% during peak usage.

Projects

AlgoSENSEI | AI Learning Platform for Software Engineers | Live Demo | GitHub

(Python, FastAPI, LangChain, Google Gemini API, REST APIs)

- Built and launched an AI-powered coding mentor, taking ownership from idea validation and feature planning to deployment and continuous product improvements.
- Analyzed user interactions, prioritized features based on feedback, and iteratively improved onboarding and learning workflows to enhance user experience.

Smart Resume Analyzer | Live Demo | GitHub

(Python, FastAPI, NLP, spaCy, Scikit-learn)

- Built an NLP-based resume parsing and classification system using **spaCy** and **scikit-learn**, achieving **95%** accuracy in skill extraction and candidate evaluation.
- Developed **RESTful APIs** and deployed the application using **Gunicorn** and **Nginx**, implementing a weighted scoring system that improved candidate ranking accuracy by 20%.

Leadership & Achievements

- **University Sports Secretary**, VIT – Selected twice from 16,000+ students, led 300+ volunteers, coordinated cross-functional teams, managed stakeholder communication, and executed university events involving 1,500+ participants.
- **Research Paper Accepted** – “Hybrid Attention Network with TabNet Benchmarking for Breast Cancer and Heart Disease Classification” accepted at the 1st International Conference on Smart Technologies and Intelligent Computing (INCSTIC-2025).
- **India Innovates 2026 National Hackathon Finalist** – Ranked among the Top 600 teams out of 35,000+ participants nationwide for developing a Hyperlocal Flood Intelligence System.
