Education

Vellore Institute of Technology, India

2023 – 2027

B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning) — CGPA: 7.89

Technical Skills

- **Programming Languages:** Python, SQL, Java
- **Product & Analytics:** Power BI, Excel, Google Sheets, Pandas, NumPy
- **Development & Tools:** FastAPI, REST APIs, Git, GitHub, PostgreSQL
- **Core Concepts:** Product Analytics, Business Analytics, DBMS, Machine Learning

Work Experience

Paws Pal Connect - FastAPI Developer Intern

Dec 2025 - Mar 2026

(FastAPI, REST APIs, PostgreSQL, Pydantic (FastAPI validation), Git / GitHub)

Remote

- Developed and maintained RESTful APIs using FastAPI, focusing on scalable backend architecture and performance optimization.
- Optimized database operations, resolved backend issues, and improved API reliability through testing, debugging, and documentation.

ASGRV Solutions Pvt. Ltd. - Software Developer Intern

Jun 2025 - Dec 2025

(FastAPI, REST APIs, Microservices Architecture, SQL Databases, Pydantic, JSON, Git, Async APIs)

New Delhi

- Developed a Smart Search microservice using Python and FastAPI, reducing data retrieval latency by 30%.
- Spearheaded creation of secure **RESTful API architecture**, writing production-ready code that streamlined operational workflows and demonstrably **reduced server load** by 10% during peak usage.

Projects

AlgoSENSEI | AI Learning Platform for Software Engineers | Live Demo | GitHub

(Python, FastAPI, LangChain, Google Gemini, REST APIs)

- Built and launched an AI-powered coding mentor from scratch, owning the complete product lifecycle from feature planning and backend development to deployment and iterative improvements based on user feedback.
- Analyzed user interactions, refined workflows, prioritized features, and continuously improved product usability while building scalable FastAPI services.

Smart Resume Analyzer | Live Demo | GitHub

(Python, FastAPI, NLP, spaCy, Scikit-learn)

- Built an NLP-based resume parsing and classification system using **spaCy** and scikit-learn, achieving **95%** accuracy in skill extraction and candidate evaluation.
- Developed **RESTful APIs** and deployed the application using Gunicorn and Nginx, implementing a weighted scoring system that improved candidate ranking accuracy by 20%.

FinTech Dashboard & Predictive Analytics | Live Demo | GitHub

(Python, Scikit-learn, Streamlit, Git)

- Built an interactive financial analytics dashboard using Streamlit to analyze user-facing financial data, identify trends, and generate actionable insights through visual dashboards.
- Processed datasets using Pandas and Scikit-learn, transforming raw data into decision-ready visualizations and predictive insights.

Leadership & Achievements

- **University Sports Secretary, VIT Bhopal** – Selected twice as University Sports Secretary from a student body of 16,000+, leading 300+ volunteers and managing logistics, scheduling, and execution for AdvITYa 2024–2026 involving over 1,500+ participants.
- **Research Paper Accepted** – “Hybrid Attention Network with TabNet Benchmarking for Breast Cancer and Heart Disease Classification” accepted at the 1st International Conference on Smart Technologies and Intelligent Computing (INCSTIC-2025).
- **India Innovates 2026 National Hackathon Finalist** – Ranked among the Top 600 teams out of 35,000+ participants nationwide for developing a Hyperlocal Flood Intelligence System.
